

Dear (Recipient First Name),

## SEASONS GREETINGS

Firstly, we'd like to extend our best wishes to you and your families for a very **Merry Christmas** and a safe and prosperous 2008.

December is here and the Christmas festivities have begun for the Cosmos 21+ Group. The year has been one of dynamic changes, and new and exciting ventures and ideas. We have sadly farwelled some staff members and welcomed new ones on board.

Likewise, we have welcomed many new customers to Cosmos and are looking forward to another year of effective working relationships. On the technology front, we have introduced exciting new technologies like **Hyperactive Bob** and **Mobile Ordering** with more innovations just around the corner...

We'd like to extend our thanks again to those of you who have been filling out our contact update survey over the year. We are extremely grateful for the support we have been getting from our clients and have significantly improved our communication methods as a result of your co-operation.

### > Technology Resolutions 2008!

The COSMOS 21+ Group would like you to take a few moments over the Christmas/New Year's Break to consider the following technology resolutions:

1. How can technology work better for you?  
(Please send us your thoughts: [info@cosmos21.com.au](mailto:info@cosmos21.com.au))
2. Can technology help you reduce labour costs or increase productivity in your site?
3. What is the cost of old and out-dated technology?
4. Where could technology take you in 2008?

The COSMOS 21+ Group is committed to continually improving the use of technology for our clients. To do so we need to know more about where you feel technology can take you and your business.

Early in the new year will be sending out a technology directions questionnaire for your consideration. So if you find a few moments to consider the points above over the Christmas period that would be great.

Kind regards,

**Adam Mayhood**  
CEO  
The COSMOS 21+ Group
